APPROVED:	MARGARET A. KLEE, Chief Information Officer JAMES KONANTZ, Assistant Superintendent	

For further information, please call the LAUSDnet Unit, at (213) 633-1227.

This revision replaces the bulletin of the same number and subject dated February 28, 2002. Language in Attachment E (Site Agreement) has been revised to more accurately define the agreement.

I. BACKGROUND

On January 8, 2002, the LAUSD Board of Education established Board Rule 1254 as the Acceptable Use Policy for the Internet as required by the Children's Internet Protection Act. All connections to the Internet by Los Angeles Unified School District (LAUSD) students or employees are subject to the LAUSD's Acceptable Use Policy (AUP). This bulletin will undergo annual review to ensure that it reflects current laws and regulations.

Access to the Internet allows connections to computer systems located all over the world. Users (and parents of student users) must understand that neither the District nor any LAUSD employee controls the content of the information found on these systems. Some of the information may be controversial and may even be offensive to some individuals. Teachers, administrators, and other school personnel should ensure connections to the Internet are used in a responsible, efficient, ethical, and legal manner, and such use must be in support of education and research consistent with LAUSD's educational objectives.

II. PROCEDURES

Users of District networks or the Internet must adhere to:

Attachment A (ACCEPTABLE USE POLICY). Site administrators must use the appropriate attachments to certify the District's Acceptable Use Policy has been distributed and signed by their staff, students, and parents/guardians.

Attachment B (EMPLOYEE AGREEMENT) is required of all employees of the LAUSD using a District computer network or Internet access.

Attachment C (STUDENT AGREEMENT) is required of all students of the LAUSD using a District computer network or Internet access.

Attachment D (PARENT OR GUARDIAN AGREEMENT) is required of all Parent or Guardians of the LAUSD having children in LAUSD programs using a District computer network or Internet access.

Attachment E (SITE AGREEMENT) is required of all schools and offices.

Attachment F (STUDENT INTERNET TEST) is required of all students of the LAUSD using a District computer network or Internet access.

Please use the appropriate attachments and follow the procedures on each attachment for submittal or local filing.

BULLETIN NO. K-19 (Rev.)
March 15, 2002

ATTACHMENT A

ACCEPTABLE USE POLICY (AUP) FOR THE INTERNET
(This Acceptable Use Policy replaces Bulletin No. K-19 (Rev.) dated August 20, 1999)

Reasons for this Policy

The Los Angeles Unified School District ("School District") is providing computer network and Internet access for its students and employees. This service allows employees and students to share information, learn new concepts, research diverse subjects, and create and maintain school-based websites.

The School District has adopted this Acceptable Use Policy ("Policy") to set guidelines for accessing the computer network or the Internet service provided by the School District. Every year, students and employees who want computer network and Internet access for that upcoming school year need to sign and submit this Policy to the School District. Students who are under 18 also must have their parents or guardians sign this Policy. By signing this agreement, the student, employee, and parent or guardian agree to follow the rules set forth in this Policy and to report any misuse of the computer network or the Internet to a teacher or supervisor. Parties agreeing to this policy also understand the School District may revise the Internet Acceptable Use Policy as it deems necessary. The School District will provide notice of any changes either by posting such a revised version of the Policy on its website or by providing written notice to the students, employees and parents or guardians.

To obtain free computer network and Internet access, students also must successfully complete the Student Internet Test and follow any school procedures developed at the school site. Each student or employee who qualifies may access the computer network or Internet. This Acceptable Use Policy must accompany any request for a LAUSDnet account (which provides district email and dial-up access) and is also required for access to any LAUSD network and LAUSD dial-up service. The student or employee is required to change the password the first time he or she uses the Account and routinely thereafter.

The Account may only be used during the time the user is a student or employee of the School District. Anyone who receives an Account is responsible for making sure it is used properly.

Acceptable Uses of the Computer Network or the Internet

The Account provided by the School District should be used only for educational or professional purposes. Staff may use the Internet for personal use only if such use is incidental and occurs during their duty-free time.

If a user is uncertain about whether a particular use of the computer network or the Internet is appropriate, he or she should consult a teacher or supervisor.

Unacceptable Uses of the Computer Network or the Internet

The following uses of the Account provided by the School District are unacceptable:

- Uses that violate any state or federal law or municipal ordinance are unacceptable. Unacceptable uses include, but are not limited to the following:
 1. Selling or purchasing any illegal substance;
 2. Accessing, transmitting, or downloading child pornography, obscene depictions, harmful materials, or materials that encourage others to violate the law; or
 3. Transmitting or downloading confidential information or copyrighted materials.
- Uses that involve the accessing, transmitting or downloading of inappropriate matters on the Internet, as determined by the school board, local educational agency or other related authority
- Uses that involve obtaining and or using anonymous email sites.
- Uses that cause harm to others or damage to their property are unacceptable. Unacceptable uses include, but are not limited to the following:
 1. Deleting, copying, modifying, or forging other users' e-mails, files, or data;
 2. Accessing another User's email without their permission, and as a result of that access, reading or forwarding the other User's e-mails or files without that User's permission;
 3. Damaging computer equipment, files, data or the network;
 4. Using profane, abusive, or impolite language;
 5. Disguising one's identity, impersonating other users, or sending anonymous e-mail messages;
 6. Threatening, harassing, or making defamatory or false statements about others;
 7. Accessing, transmitting, or downloading offensive, harassing, or disparaging materials;
 8. Accessing, transmitting or downloading computer viruses or other harmful files or programs, or in any way degrading or disrupting any computer system performance; or
 9. Accessing, transmitting or downloading large files, including "chain letters" or any type of "pyramid schemes."
 10. Using any district computer to pursue "hacking," internal or external to the district, or attempting to access information that is protected by privacy laws.
- Uses that jeopardize access or lead to unauthorized access into Accounts or other computer networks are unacceptable. Unacceptable uses include, but are not limited to the following:
 1. Using other users' Account passwords or identifiers;
 2. Disclosing one's Account password to other users or allowing other users to use one's Accounts;
 3. Getting unauthorized access into other users' Accounts or other computer networks; or
 4. Interfering with other users' ability to access their Accounts.

- Commercial uses are unacceptable. Unacceptable uses include, but are not limited to the following:
 1. Selling or buying anything over the Internet for personal financial gain; or
 2. Using the Internet for advertising, promotion, or financial gain; or
 3. Conducting for-profit business activities and engaging in non-government related fundraising or public relations activities such as solicitation for religious purposes, lobbying for political purposes, or soliciting votes.

Internet Safety

- In compliance with the Children's Internet Protection Act ("CIPA"), the School District will implement filtering and/or blocking software to restrict access to Internet sites containing child pornography, obscene depictions, or other materials harmful to minors under 18 years of age. The software will work by scanning for objectionable words or concepts, as determined by the School District. [Note: CIPA does not enumerate any actual words or concepts that should be filtered or blocked. Thus, CIPA necessarily requires that the School District determine which words or concepts are objectionable.] However, no software is foolproof, and there is still a risk an Internet user may be exposed to a site containing such materials. An Account user who incidentally connects to such a site must immediately disconnect from the site and notify a teacher or supervisor. If an Account user sees another user is accessing inappropriate sites, he or she should notify a teacher or supervisor immediately.
- In compliance with CIPA, the School District and its representatives will implement a mechanism to monitor all minors' on-line activities, including website browsing, email use, chat room participation and other forms of electronic communications. Such a mechanism may lead to discovery a user has violated or may be violating this Policy, the appropriate disciplinary code or the law. Monitoring is aimed to protect minors from accessing inappropriate matter, as well as help enforce this policy, on the Internet, as determined by the school board, local educational agency or other related authority. The School District reserves the right to monitor other users' (e.g., employees, students 17 years or older) online activities, and to access review, copy, store or delete any electronic communications or files and disclose them to others as it deems necessary.
- If a student under the age of eighteen accesses his/her LAUSDnet Account or the Internet outside of school, a parent or legal guardian must supervise the student's use of the Account or Internet at all times and is completely responsible for monitoring the use. Filtering and/or blocking software may or may not be employed to screen home access to the Internet. Parents and legal guardians should inquire at the school or district if they desire more detailed information about the software.
- Student information shall not be posted unless it is necessary to receive information for instructional purposes, and only if the student's teacher and parent or guardian has granted permission.

- Account users shall not reveal on the Internet personal information about themselves or about other persons. For example, Account users should not reveal their full names, home addresses, telephone numbers, school addresses, or parents' names on the Internet.
- Account users shall not meet in person anyone they have met on the Internet in a secluded place or a private setting. Account users who are under the age of 18 shall not meet in person anyone they have met on the Internet without their parent's permission.
- Account users will abide by all school district security policies.

Privacy Policy

The System Administrator has the authority to monitor all Accounts, including e-mail and other materials transmitted or received via the Accounts. All such materials are the property of the School District. Account users do not have any right to or expectation of privacy regarding such materials.

Storage Capacity

To ensure that Account users remain within the allocated disk space, users with email accounts should check their email frequently and delete unwanted messages and other files or data that take up excessive storage space. The system administrator will also routinely delete messages from Account users' inbound and outbound log files, messages saved to the archive folders on the system, and messages posted to the School District's web site.

Penalties for Improper Use

The use of the Account is a privilege, not a right, and inappropriate use will result in the restriction or cancellation of the Account. Inappropriate use may lead to any disciplinary and/or legal action, including but not limited to suspension or expulsion or dismissal from employment from the School District, or criminal prosecution by government authorities. The School District will attempt to tailor any disciplinary action to meet the specific concerns related to each violation.

Disclaimer

- The School District makes no guarantees about the quality of the services provided and is not responsible for any claims, losses, damages, costs, or other obligations arising from the unauthorized use of the Accounts. The School District also denies any responsibility for the accuracy or quality of the information obtained through the Account.
- Any statement, accessible on the computer network or the Internet, is understood to be the author's individual point of view and not that of the School District, its affiliates, or employees.
- Account users are responsible for any losses sustained by the School District or its affiliates, resulting from the Account users' intentional misuse of the Accounts.
